ACACIA ENERGY GROUP
SWITZERLAND | MALTA | NETHERLANDS | USA | UK
Message from the Founder, President & CEO

Acacia Energy Group promotes a culture of Corporate Social Responsibility (CSR) that respects the rights and safety of individuals, as well as the laws, environments and sustainability of all the communities where we operate.

We are focused on addressing concerns around high-priority social issues such as human rights, ethical conduct, and individual security and privacy. We strive to tackle challenging issues head on, make our communications and processes simple, be accountable for fulfilling our commitments, and empower all our employees to do what is right.

By voluntarily accepting responsibility for society, Acacia combines entrepreneurial success with responsible behavior and delivers commodity products that make life easier, safer and greener. This is our approach towards Corporate Social Responsibility.

Our CSR Policy sets out our expectations for employees and helps them making ethical and socially responsible decisions. Respect for human rights plays a very important role in maintaining these foundational principles.

I truly believe that what is good for the world and good for business are more closely connected than ever before. As more and more people and businesses become connected, we have more opportunities than ever to change the world for the better.

Our social responsibility and role as a corporate citizen and steward is a core to all that we do, and it will be a key driver of our long-term success. We see our social responsibility as leaving behind a world worth living in – for our children and grandchildren.

I look forward to continuing this important work in the years to come.
