

FERTILIZER COMMODITIES

SWITZERLAND | MALTA | NETHERLANDS | USA | UK | UAE

Fertilizers

Acacia Energy Group is the successful independent trader of fertilizer commodities.

We source fertilizers worldwide and have access to all the key natural and synthetic origin fertilizers from a variety of global producers and suppliers. Acacia manages fertilizers trading, storage and supply to partners and customers globally.

Acacia Energy Group rapidly expanded into trading of fertilizer commodities. Acacia's proven global trading model and relationships in the agricultural sectors have enabled our continued and successful expansion into increasingly volatile global fertilizer markets.

Acacia's global network of trading offices, market knowledge, superb supply chain logistics and technical capabilities allow Acacia to identify and capitalize on the changing fertilizer commodities trade flows and market dynamics, recognize supply and demand opportunities, optimize supply chains, and service the fertilizer needs of its customers around the world.

Acacia Energy Group maintains long-term relationships with manufacturers and suppliers of natural or synthetic fertilizers all over the world.

Our sourcing and trading personal has first-hand knowledge and expertise in the fertilizer commodities markets and offers transactional support, risk management and financial expertise in order to meet all needs of our customers around the world.

Acacia fertilizer commodities trading operations cover:

- UREA (Carbamide)
- UAN (Urea Ammonium Nitrate)
- DAP (Diammonium Phosphate)
