## LOCATIONS

Acacia's trading offices are located in the world's main trading locations - Zurich, Antwerp, Rotterdam, London, Dubai, New York and Houston. Due to its global presence and knowledge of the marketplace, Acacia has a unique ability to efficiently supply its customers with refined petroleum products and further provide comprehensive set of services for leased storage, tank farms usage and blending facilities.

## ABOUT

Acacia Energy Group is an international and independent energy and petroleum products trading company with offices and facilities located in Europe, North & South Americas, and the Middle East.

## MISSION

Our mission is to be the example within the fuel and commodities trading industry for providing quality service with uncompromised ethics, honesty and integrity

## VISION

- A proven and reliable source within the fuel and commodities trading industry in supplying our customer base
- Dedicated and direct proven source of commodities and petroleum products

## VALUES

- Dedicated customer service
- Reliable supply chain network
- Integrity and ethics

OUR COMPANY IS

WORKING TO  
MAKE A  
DIFFERENCE  
WITH  
INTEGRITY  
AND HONESTY

JAMES W. HEAD  
FOUNDER, PRESIDENT & CEO

## HISTORY

Acacia Energy Group was born in 2014 out of its founder's desire to leverage more than 30 years of experience procuring oil for the U.S. Military, and thus continue doing something he was passionate about. Acacia Energy Group has direct source allocations from refineries in Russia, Saudi Arabia and JV Partnerships, thus being able to provide Jet Fuel, Heating Oil, ULSD, and other refined petroleum products.

## FOCUS

We focus on our own type of IRR (Internal Rate of Returns) of Integrity, Respect and Reputation.

## ASSETS

Acacia controls terminal storage in Antwerp, Amsterdam and Rotterdam, and is in the process of acquiring refinery assets globally and building additional terminal storage in the U.S. Gulf Coast and Central America.

## EXPERTISE

The company's expertise is based on the experience in international fuel trading and commodities procurement.
